We are so grateful to have supporters like you making stories and Kingdom results like these possible!

We do recognize that parents and youth ministries are still cautious about sending campers due to COVID worries, and that translates to the realization we have not fully recovered yet with operational income from camper fees.

Your year end donation for the general operation of camp especially during the slowest winter months is so crucial. It is during the winter weekdays that building maintenance, new construction, summer staff recruitment, camp program planning and summer camper recruitment take place.

Our year end goal for 2021 is \$72,000 which will help Maranatha to stay on pace as we move forward in the work of the ministry in 2022. You might be interested in being a Day Sponsor - \$1,200 or half day \$600. For some it becomes feasible to do by dividing this out into 12 monthly gifts. A business acquaintance has offered to match up to \$50 per person for the first month of auto withdrawal donations which begin before December 31st. Please join us by making your gift online or by sending a check in the enclosed envelope.

P.S. This past year many friends experienced that some investments grew significantly in value. Remember that capital gains and income tax can be avoided (your gift goes farther) if you donate appreciated assets which Maranatha then sells. Your Investment Company or financial advisor will need this official wording:
